

ArtsBridge Audition Workshops

WHAT SHOULD I EXPECT?

The beginning of the day will start with an “audition,” so come dressed as you plan to dress for your college auditions. The students will start off with a private audition for the faculty panel, as though it were a real college audition. The faculty will make assessments about each student. After the initial auditions, the faculty will work with students in a group setting. This will give you a chance to receive individual feedback from the faculty and the chance to work on their performance tips right then!
